

Oodles of Oodles – What’s the Amalie Difference?

“Amalie Labradoodles” – who are we?

Hi, I’m Tracey – a breeder of multi-generation Australian Labradoodles based on the Bellarine Peninsula (Victoria). began our breeding program in 2006 when Jezebel joined our family.

Amalie’s Philosophy

Our dogs have always brought us a great deal of happiness. From quite companionship to an active lifestyle, our dogs love to be there and share with us their infective joy and playfulness.

We strive to share the smiles they send our way with others. We do this by:

- Only breeding puppies according to need – that’s why our waiting list can take a while...
- Selecting breeding stock with superior qualities to pass on to the next generation
- Dedicating our efforts in the first 8 weeks of life to a structured but individualised puppy socialisation program. We build foundational life skills that contribute to intelligence and balanced temperament in the puppies we raise.
- Sharing knowledge as we learn and actively participating in breeder networks and continuing to learn as an accredited breeder

What do I get when I buy an Amalie Labradoodle?

Your puppy will have been raised and cared for in our home til 8 weeks. You will know what sort of coat your pup will have and to the best of our ability, we will aim to estimate his adult size. Amalie puppies are super smart – you will need to be on your game!!

	What’s included?	Notes
	De-sexing at 7 weeks	You receive a certificate from our vet and pup has a tattoo in the ear for easy identification. A thorough vet health check is done at this time and you will receive a copy of the report.
	Micro-chipping	Your pup is chipped with an internationally compliant microchip.
	Preventative health	Age-appropriate vaccinations & worming – a vaccination certificate is supplied with a schedule of when the next vaccination is due.
	Flea and tick treatment	Given at 6 or 8 weeks – it covers pup for 1 month giving you time to arrange ongoing preventative health care with your vet’s advice.
	3 year health guarantee	Please read our info sheet and contract for more details.
	Amalie Pedigree	In most cases we provide a 5 generation pedigree for our pups.
	Puppy care notes and our ongoing support	Comprehensive notes providing a good range of introductory information to help you and your puppy settle in at home.
	Basic training and socialisation	As pups are raised in our home household noise and activity will be the norm for these guys from a young age

Our ongoing commitment to you and your Amalie Labradoodle...

Yes, we love to hear from you and are available by phone / email for ongoing support for the life of your pup. If you have health or behavioural concerns we want to know and if for some reason you are no longer able to care for your pup, we are there to assist to re-home him or her.
